

Red Light District General Plan for Parcel Distribution and Economic Growth Dec. 20, 2017

Purpose

This is a roadmap for for the general development of the Red Light District aka Project 7. This document should serve as a reference to future development.

Description

The Red Light District's (RLD) Project 7 is an adult themed Community aiming to recreate some of the world most famous RL districts in VR. We will be bringing to the RLD 7 of the most famous RLD's from around the world. From Balibago Philippines where recreational sex is the sport choice to Bangkok Thailand's famous ladyboy cabaret. Shop for your favorite sex toy in Amsterdams world class adult toy store. Prague to Reno and Tijuana Mexico. All your desires fulfilled in one place. Project 7 is going to push the very limits of interaction by facilitating a social platform wherein you can walk down the street of your favorite red light district and interact with live men and women from the very district in real time.

Imagine for a moment you can't decide where to spend your sexploratory vacation Thailand or Philippines?? We are going to provide you the opportunity to take a test drive in each one, visit an actual hotel/night club, meet with and talk to the women actually working and waiting for a handsome gent like yourself. She leads you by the hand upstairs to the Short time room for a virtual boom boom and you are in love. Next this you know she takes you to the virtual travel agent in the same building and books your flight/hotel/transportation before sending you out with a kiss on the cheek and a permagrin on your face.

Strip clubs, GFE professionals, Shopping, Travel, Adult Films, Swingers Clubs, Advertising, Coffee Shops and general meeting lounges for men and women looking to meet a like minded twin soul can mingle and without fear of reproach or discrimination high above with spectacular views of Decentraland.

Resort Hotels linked to themed hotels in the real world where you can check in and fully immerse yourself in Decentraland for an extended vacation and visit all the districts.

At the very center of Project 7 will be the crown jewel of the district. A towering "7" standing 7,000' and housing 7 elite Penthouses for the High Society Members. Staffed 24/7 with concierge these clients will have access to all that Decentraland's Districts have to offer at a whim. Available for 1 year lease and with opening bids starting at 1 Million Mana these Penthouses are without a doubt the premier residence in Decentraland.

Our Beloved Red Light District is going to partner with the major players of the adult entertainment industry and bring them to you like never before imagined.

With partners like OKOIN, Spankchain, Pornhub and Aragon success will be inevitable.

Leadership Structure

SAAM I AM is Redlight District's Owner & Commander in Chief and will be working with everyone to sift through proposals, ideas for implementation, establish partnerships with outside sponsorship, work with ARAGON to establish community governance. Organize the community into 7 subsections with community leadership set in place for each of the 7 zones with project 7. Create a district registry for recording community members by username, role ect..

The important thing to remember is that every voice is to be heard, every idea considered and equality throughout. Distribute the land parcels in RLD in a manner that benefits the growth of our success, allows all members to access and build AND promotes an atmosphere of community togetherness that builds on our strengths. It is understood that not everyone will want to build their brothel/club/toystore, cafe, bed n breakfast ect.. Within one of the 7 zones.. Fear not brothers and sisters. There will be plenty of land for those who wish to build separately.

The District Leaders as identified in RocketChat will be putting together the community, documents and plans for the terraforming event

Roadmap

1. Terraforming Event
2. Establish Basic District Layout. (Main strip with outer grid / ringsetc) with allocated land.
3. Construction of the Foundation of Tower 7 and completion of it's welcome Club the night club where 100 lucky contributors will be given an OKOIN headset and invited to virtually join in OKOIN's kickoff party in Prague on January 28th.
4. Proposal sifting. Anyone that donated to the district has the opportunity to be a zone leader and propose plans for their zone within the district. Up to 20% of the land will be available to those wish to create a venue outside one of the 7 recreations of real life RLD's. More on that later.
5. Take a community vote to establish which of the 7 mini districts will be the focus of resources for first build and beginning of revenue generation.
6. Begin construction Tower 7r in the middle of the districts. This will serve as V.I.P. section for our high roller clients.
7. Establish a clear cut revenue sharing system.
8. Allocate resources to each of the districts as needed.
9. Create external partnerships with Spankchain, OKOIN and others.

Revenue Sharing Model

Revenue will be shared on an Industrial Partnership basis and member share will be based on participation and effort put into the success of the district. A schedule of values will be established based on real life rates for various activities ie. content creation and development,

marketing and advertising, management ect.. In short, you will get back what you put in.. We will follow Decentralands example with regards to management of funds. As there will be 7 mini districts within our Redlight District so too will there be 7 funds. Each mini district leader will be responsible for creating content, establishing marketability and managing revenue oversight for their own district. We work together for success and we will share in our success equally together. The adult entertainment industry is a multi billion dollar a year industry and we are about to pioneer the next big thing. Like a freight train it will start slowly, gradually picking up speed and before you realize it is an unstoppable force of revenue. Details for the collection and distribution of revenue will be clearly defined in the District User Agreement that will be issued to all members.

Legality

As you know, the adult entertainment industry walks with a regulatory bullseye on its back and You can count on a compliance audit once popularity skyrockets. It will be the responsibility of SAAM I AM to ensure the district is in compliance with Global regulations. This will entail at a minimum complying with KYC verification. These will be outlined in the District membership handbook policy and procedures.

Next Updates (1 week following conclusion of auction)

- Revenue Sharing Model
- Initial Development Budget
- Potential Sources of Financing
- Registry of Contributors
- Initial layout of District land parcels
- Design Mockups

Leadership Team (The Titty Committee)

SAAM I AM (RedLight District Owner, Overall Leader and bullet catcher. "Titty 1"

Most would like to remain anonymous but as your District Leader I feel it important to be as transparent as possible in the best interest of the district and community.

Jeffrey Paquin, USMC VET of 10 years with combat tours in several theaters. Project Engineer/Construction manager turned Compliance Engineer with USDOE National NuclearSecurity Agency Second Line of Defence program. Safety/Environmental Engineer Govt. IDIQ and Core Projects. I have managed multi-million dollar projects across the United States, I have worked in or traveled to 36 countries and visited the Red Light District in Every Damn One of them. I have lived in the Philippines and speak Tagalog fluently. (which is why I will be spending most of my time in Balibago, the mini RLD zone of Vice Block's.

My focus for our District will be to promote togetherness and unity toward a common goal. Keep the peace by providing common sense resolution. Keep us legal. Facilitate blooming relationships with partner firms. Kick the shit out of any douchebag that thinks he will be bringing any illegal activity to OUR District. Most importantly ensure that any revenue is distributed fairly and evenly to our district members. Below is my most recent Professional profile while living in the Philippines.

CONFIDENTIAL

Jeffrey ("F"GMF Jeffrox) Paquin USMC RET., CHST
President, Revolutionary Intelligence Consulting Group

A former Special Forces disabled veteran with more than 10 years of military service, Jeffrey has operated at the highest levels of Special Forces. He has served in the following positions: SF Weapons Specialist, SF Sniper, SF Assault/Operator, SF Surveillance Specialist, SF Joint Terminal Air Controller (JTAC), SF STA Operator, and SF Advanced Marksmanship Instructor.

While serving in the military, Jeffrey deployed over 10 times to combat theaters – conducting Operations with SOG (Special Operations Group). He has attended the following military training courses: SF Q-Course, SF Weapons Specialist Course, SF JTAC Course, USMC Sniper and Scout Sniper Course, SF Advanced CQB Course, SF S.E.R.E-Course, Urban SERE (215), Restraint Defeat (245), SF Sensitive Site Exploitation Course (SSE), Advanced Land Navigation-Course, Joint Technical Recon Course (JSOC), JSOC Cover Course, Military Free Fall and HALO Jumpmaster Course, Advanced Breacher Course and numerous specialized civilian courses.

Jeffrey is a certified U.S. Government Federal OSHA Outreach Instructor, and is a NRA member (National Rifle Association). He is mobility trained with US Marine Corps Advanced and Combat driver's courses. He is medically trained in Advanced Medical Trauma, continually maintains his re-certifications for consultation practices and is a CPR/First Aid/AED Instructor.

Considered a Subject Matter Expert (SME) in planning and executing Special Operations in a myriad of complex environments, as well as Construction Safety Management, Environmental Management and remediation. After many years educating the American citizen using the applicable tools and training necessary to better protect themselves and their families at work and home, Jeffrey now lives in the Philippines wherein he is lending his 20+ years' experience to better educate the Filipino people just as he did in America.

AWARENESS

OBSERVE // PREPARE // SURVIVE

Life is an epic adventure filled with beautiful and twisted fate, tragedy, and triumph.

The first step in your adventure is the most difficult.

Don't spend your life walking backwards and dreaming about the adventure that could have been.

Vice Blocks (Philippines Mini-District Leader and Assistant Redlight District Leader “Titty 2”)
Cryptoo investor, software engineer, serial entrepreneur and Overall Sexy Stud of Man-terial).

The rest of our team wishes to remain anonymous for the time being and as we develop further as a community I am confident they will come out of the Closet..

A Final Note

The Red Light District is one of the largest districts in Decentraland. This project is an enormous undertaking. It's going to take a lot of planning, development, time and effort from everyone to truly be a decentralized success. We can all profit and achieve resounding success by maintaining our focus on ONE SINGULAR ATTRIBUTE. ***USER EXPERIENCE***
we provide a user experience platform that BLOWS THEIR MIND... not to mention their load!!!

Child Porn, Sex Trafficing and Bestiality will not be tolerated in district 7. If a wallet is participating in any of those behaviors, they are subject to permanently being banned from the district.
